milwaukee metro **SOLAR HOT WATER BUSINESS COUNCIL**

The *Milwaukee Metro Solar Hot Water Business Council* is a public and private partnership with a mission to support, attract and retain manufacturers and supply chain distributors in the solar hot water market.

This one-of-a-kind organization provides an opportunity to collaborate among industry stakeholders in the Milwaukee seven-county region.

Network

Connect with businesses in the solar thermal industry. Find a niche in the solar supply chain. Attend premier conferences and events.

Collaborate

Partner with industry experts to expand and develop product lines. Learn about the industry potential through ground-breaking reports to make southeast Wisconsin a solar manufacturing hub for the Midwest.

Lead

Join an innovative business group that is leading the industry with technology and policy recommendations that come from throughout the supply chain to advance the industry.

The Solar Hot Water Business Council is a project of Milwaukee Shines, Milwaukee's solar energy program, which is part of Milwaukee's Office of Environmental Sustainability and funded through the US Department of Energy Solar America Cities program.
