What's New

The City of Milwaukee Assessor's Office launched a new data search web site (<http://assessments.milwaukee.gov>) on April 22, 2019. This site was designed by and built in support of our new data system by Patriot Properties. Since April 22, we have been making improvements to both the data provided and the usability of assessments.milwaukee.gov. We appreciate your patience while we transition to this new system. Listed below are improvements made since our initial launch. Future improvements will be documented here.

May 9, 2019

1. [Owner search](#) activated.
2. Property Class (currently labeled as LUC) and corresponding description available in Search results.
3. Lot size and Finished area in square feet available in Search results.
 - a. Note: these numbers are not accurate for Condominium properties. We are actively working to correct this.
4. The Summary tab now lists itemized current assessment values.
 - a. Note: Building Value + Yard Items Value = Improved Value (as listed on tax bills).

September 19, 2019

1. Building square footage made available as a link on the Interior Tab.

Accessing Property Information from Milwaukee Assessor's Office

1. The City of Milwaukee Assessor's Office website can be found at: <http://assessments.milwaukee.gov>
2. When first loading, it will take a bout 15 seconds for the blue area at the top of the window to appear.
 - a. This blue area offers the user search items.
 - b. When it appears it will look like this:

The screenshot shows the search interface of the City of Milwaukee Assessor's Office website. At the top, there is a navigation bar with tabs for HOME, SEARCH, SUMMARY, INTERIOR, EXTERIOR, and ABOUT. The SEARCH tab is active. Below the navigation bar is a search form with various input fields. The form is organized into columns: Taxkey, Street name, and Street num; Building type, Year built, Beds, and Baths; Lot size, Fin size, and LUC; Total value, Sale price, Sale date, and Book; and Thru fields for Lot size, Fin size, Sale price, and Sale date. There are also 'Clear form' and 'Go' buttons. Below the search form, the text 'City of Milwaukee' is displayed in a blue, underlined font, followed by 'Property Assessment Data' in a bold black font. The City of Milwaukee logo, featuring a stylized building, is shown next to the text 'City of Milwaukee'. At the bottom, a message reads: 'To search for property information, enter either **taxkey** or **address** information above, followed by **Enter** or clicking **GO** button at upper right.'

Search by Taxkey

- When the search area appears, you can do as the instructions suggest and type a **taxkey** in the box at the upper left, and then click enter or the **GO** button at the far right.

A screenshot of the search interface. At the top, there are two tabs: 'HOME' and 'SEARCH'. Below the tabs, there are three input fields: 'Taxkey' (containing '3920604110'), 'Street name', and 'Street num'. A red arrow points to the 'Taxkey' field.

A screenshot of the search results page. At the top, there are five tabs: 'HOME', 'SEARCH', 'SUMMARY', 'INTERIOR', 'EXTERIOR', and 'ABOUT'. Below the tabs, there are several input fields for search criteria: 'Taxkey' (3920604110), 'Street name', 'Street num', 'Building type', 'Year built', 'Beds', 'Baths', 'Lot size', 'Fin size', 'LUC', 'Total value', 'Sale price', 'Sale date', 'Book', and 'Page'. There are 'Clear form' and 'Go' buttons at the bottom right. A red arrow points to the 'Go' button.

- The search will return a results set that shows all the taxkeys that match the search criteria. It also lists location, owner names, year built, building type or style, total current assessment, number of bedrooms, number of bathrooms, lot size, finished area, property class, recent sale or transfer date, and sale price.
 - If you type a complete, 10-digit taxkey, your result list will consist of only one property.
 - If you type less than 10 digits in a taxkey search, your result list will return a row for every taxkey that starts with those numbers.
 - If you type in a 10-digit taxkey and get no results, the taxkey you typed is not valid or no longer active.
 - Note: As of 4/22/2019, lot size and class are not being displayed in search results. This issue is being addressed.

Click on the Parcel ID to view the parcel detail.

Taxkey	Location	Owner	Built Type	Total Value	Beds Baths	Lot size Fin area	LUC Description	Sale date Sale price
3920604110	100 E WISCONSIN AV	HERTZ MILWAUKEE 100 EAST WISCONSIN LLC	1988 Office Building - Class A Parking Garage, Parking Ramp	\$75,594,300	0 0	0 461,300		4/14/2017

[Print page 1 of 1](#)

Search by Address

- To search by address, type in the **street name** and the **street number** in the appropriate search fields and click **GO**.

A screenshot of the search interface. It features a blue header with 'HOME' and 'SEARCH' buttons. Below the header are three input fields: 'Taxkey' (empty), 'Street name' (containing 'wisconsin'), and 'Street num' (containing '100').

A screenshot of the search results page. It has a blue header with 'HOME', 'SEARCH', 'SUMMARY', 'INTERIOR', 'EXTERIOR', and 'ABOUT' buttons. Below the header are several filter fields: 'Taxkey', 'Street name' (wisconsin), 'Street num' (100), 'Building type', 'Year built', 'Beds', 'Baths', 'Lot size', 'Fin size', 'LUC', 'Total value', 'Sale price', 'Sale date', 'Book', and 'Page'. There are 'Clear form' and 'Go' buttons on the right.

- The search will return a results set that shows all the addresses that match the search criteria. It also lists location, owner names, year built, building type or style, total current assessment, number of bedrooms, number of bathrooms, lot size, finished area, property class, recent sale or transfer date, and sale price.
 - If you type in a street name with no house number, the results list will include all taxkeys on that street.
 - If you type in a street name without the street type (e.g. ST, AV, CT), your result list will include taxkeys from all versions of that street name. For example, typing "Layton" in the street name search will return results for taxkeys on both Layton Av and Layton Bl.
 - If you type an incomplete street name, the results list will include taxkeys for all taxkeys on all streets whose names start with those letters. For example, typing "Bea" in the street name search will return results for taxkeys on Beale St, Beatrice Ct, and Beau Av.
 - Note: As of 4/22/2019, lot size and class are not being displayed in search results. This issue is being addressed.

[Print page 1 of 1](#)

Search by Owner

7. To search by owner, type in the **owner name** in the **Owner** search field.

The image shows a search interface with three tabs: HOME, SEARCH, and SUMMARY. The SEARCH tab is selected. Below the tabs are four input fields: Taxkey, Street name, Street num, and Owner. The Owner field contains the text 'millerc'.

- a. As you start typing, the search results will appear, and become more refined as complete your name search.
- b. Name searches function as a “begins with” query; in other words, the name search is going to start with the first character of the owner name as it has been recorded. Individuals are listed with their first name first, so searches should start with first names.
 - i. Example: **millerc** will return all properties owned by **MILLERCOORS**
 - ii. Example: **john** will return all properties with owners that start with the letters j-o-h-n, including first names **John, Johnny**, and company names like **Johnson Controls** or **Johnston Center Outlots**.
- c. To provide some flexibility in searching, the percent (%) sign, functions as a wildcard. This can be a helpful tool when you don’t know the exact name listing or spelling.
 - i. Example: **%badger** will return all properties with owners that include the six letter m-u-t-u-a-l somewhere in the name, including **Badger Mutual** and **Honey Badger LLC**.
 - ii. Example: **north%life** will return all property owned by **Northwestern Mutual Life**.

Search Results

9. Our web site does not currently provide detailed information about square foot information for basements, finished areas, and unfinished areas. This information can be requested by email to assessor@milwaukee.gov – please include taxkey and address information for all requests
10. Anything other than Taxkey that is blue in the results list page can be clicked to generate a new result list based on that item.
 - a. See below for examples.
11. Clicking on a taxkey will take you to detailed information about that specific property. See the section of this documentation, “Viewing Property Details,” for more information.
